Position Purpose: At HomeDepot.com, our award-winning e-Commerce team is blazing a trail of retail shopping innovation by leveraging cutting-edge technology with our 2,200+ store locations and a relentless focus on customer service. We have been named one of the world's most innovative companies and we are on a mission to provide the best interconnected shopping experience to our consumers. To do so, we need more dreamers, innovators and big thinkers passionate about re-imagining the future of retail. Interested in making history with us? If so, apply today to experience what it's like to be a part of our HomeDepot.com team. Who knows? Your next big idea may just change the future of retail! The Manager, Online Product Management is responsible for driving digital and e-commerce products. Product Managers will also support indepth business reviews, present to senior management, and partners with the Technology, Design, and Operations teams. Must be able to work at the strategic level (generating bold and innovative ideas for growth) and at the tactical level (analyzing data, solving problems). The Product Manager will help monitor and drive the business on all aspects of demand, customer experience, and conversion. He/she should be passionate about the customer and the E-commerce industry and must have proven analytical capability and the ability to multi-task and thrive in a fast paced environment. Major Tasks, Responsibilities, and Key Accountabilities: Research and DataAnalytics (20% of time):Analyzes customer needs and market trends to drive site features and enhancements that provide Home Depot online customers with an unparalleled shopping experienceInvestigates specific areas of the customer experience and develops fact-based recommendations to improve customer experienceMonitors, analyzes, and reports on feature needsPlanning and Alignment (40% of time):Drives features through partnership with engineering and design teamsProposes strategic and tactical initiatives to improve their designated components of Homedepot.comInfluences key stakeholders in engineering, UX, design, and operations to obtain buy-in for business casePrioritizes feature tradeoffs between business and customer need, as well as added valueIdentifies and assesses value of technology licensing with new vendors to deliver innovative customer experience featuresPartners with internal and external stakeholders to gain cross-functional support and goal alignmentApplies a thorough understanding of the E-commerce industry, its seasonality, and global business trends/eventsContinually monitors competitor and industry developmentsDelivery and Execution (40% of time):Defines measures of success with business, customer, and technology metrics for process improvementsCreates business requirements and drives improvements to customer-facing site features, back end systems, and new
